

EXTERIOR MOUNTED RETRACTABLE SCREENS

Exterior Screens

RELAX AND ENJOY COOL COMFORTABLE SHADE

THE ULTIMATE SUNBLOCK®

Control The Sun Automatically

Motorized Eclipse screens can be deployed during high sun periods to reduce direct light and glare as well as ambient light. You'll be able to enjoy your view without the harsh direct sunlight. Because our screens are fully retractable, you determine when you need them to perform. Your motorized screens can be installed to work independently, in concert with other screens or function automatically with sun and room temperature sensors.

THE Eclipse Vertical Drop Screen

This heavy duty screen is our most economical solution to solve your sun problem. Often found on open air patios and porches across America, the Eclipse Vertical Drop can cover large open areas.

Dramatically Reduce Your Cooling Costs

Exterior Screens

Stop the sun's heat and damaging rays BEFORE they enter with Eclipse exterior mounted retractable solar screens. Significantly reduce your energy costs with the "green" cooling power of solar screens, blocking up to 98% of the sun's heat. With today's high-tech fabrics, you will maintain your view while efficiently managing the effects of the sun. Each Eclipse solar screen is individually made by skilled craftsmen in the USA to meet your exact needs.

THE Eclipse 4" Cassette Screen

This self-enclosed shading system provides the ultimate in indoor comfort and solar protection, blocking up to 98% percent of the sun's harmful UV rays from entering your home or business. This can also save on air conditioning costs by as much as 40 percent! The Eclipse 4" cassette can be utilized on most windows.

THE Eclipse 5.5" Cassette Screen

This is the "big brother" to the 4" Cassette and provides all the same features. The 5.5" Cassette is 40% larger and stronger, featuring heavier duty hardware – ideal for very large openings or large glass areas. Like the 4" Cassette, the 5.5" offers tracks or cables to guide the fabric when extended.

THE Eclipse TracLock

The Eclipse TracLock exterior shade beautifully expands your outdoor living space with an added level of protection while providing a cool, insect free environment. Besides providing UV protection for your furnishings, you will maintain your view of the outdoors without sun glare. You will also extend your outdoor living space protecting your family and guests from pesky flying insects and other intruders.

MERMET

Electronic Accessories

Eclipse screens are available in a variety of motor options to meet your needs. We utilize Somfy motors which are designed to tie into home automation systems as well as function with wireless sensors, greatly increasing the effectiveness of your screens.

Wide Array Of Fabrics To Choose From
